

π -DE 2024

1st TIDE International
Research Conference

TEMPLATE-DESIGNED
ORGANIC ELECTRONICS
& BEYOND

10 – 13 March, 2024
Cologne, Germany

10 – 13 MARCH 2024, DEPARTMENT OF CHEMISTRY, UNIVERSITY OF COLOGNE

The 1st TIDE International Research Conference will provide an excellent opportunity for the intellectual and social interactions that make our community closely connected. Experts from all over the world involved in research, development, manufacturing, and the application of fundamental physics will come together to discuss the newest technologies and devices, including organic semiconductor materials.

TOPICS INCLUDE BUT NOT LIMITED TO:

- Synthesis of π -conjugated materials
 - Supramolecular chemistry
 - Synthesis & properties of graphene nanoribbons
 - 2D materials
 - Surface science
- Optoelectronic devices (OLED, solar cells, OFETs, and others)
 - Theory and modelling of templating and charge transport
 - Exciton and charge dynamics
 - Strong light-matter interaction

Unique to this prestigious conference will be the family atmosphere where young scientists and high-level experts, visionaries and ground breakers come together to create the future of scientific research. Use this opportunity to present yourself and your research to a select group of international specialists.

The conference will include an evening networking dinner as well as a Poster Session. To stay informed, continue to follow our website at www.tide-conference.com for further updates and be on the lookout for our newsletters.

Your Host and Conference Chair, Prof. Dr. Klaus Meerholz
